EE338 DIGITAL SIGNAL PROCESSING:
(optional) ASSIGNMENT FOR INTERACTION WITH CLASS COLLEAGUES

(a) Approach at least ten (10) people of the class whom you do not know very well. When you do, ask them more about themselves, particularly their strengths and capabilities. Please describe the interaction with **at least these ten (10)** colleagues in the class, whom you did not know/ did not know very well before the interaction, in the rows of Table One below. You could describe more interactions if you wish, on a separate page in the same format.

(b) In Table Two, describe **what you learnt about your own strengths or about yourself and/or your class colleagues, and your experience,** during these interactions.

(c) Submit this format, duly completed in all respects to the instructor or the Teaching Associates of the course by **14 March 2019**. **If done satisfactorily, this assignment earns 10 (ten) marks in the component for class participation.** Your response sheet will be returned to you only and not to anyone else, as it is to be seen only by the Instructor and the Teaching Associates. It must be personally collected by you, from the instructor/ teaching associates, as announced at that time.

(d) **Note that this assignment is OPTIONAL.** You could, as well earn marks for class participation by other means, from the other opportunities.
